Technical Skills

Programming Languages: C#, JavaScript, TypeScript

Web Development: ASP.NET, MVC, .NET Core, AngularJS, HTML, CSS

Frameworks & Technologies: Entity Framework

Database Management : MS SQL Server

Version Control Systems: Git

Development Tools: Visual Studio, Azure DevOps, Docker

Methodologies: Agile

Experience

CBCHS Cameroon

January 2022 – Present

Senior Software Developer

Bamenda, North West Region

- Orchestrated the design, development, and testing of intricate software systems using .NET technologies, driving a 20% increase in system efficiency.
- Authored 2 technical documents, comprising specifications, design documents, and user manuals, ensuring clarity and consistency across projects.
- Spearheaded initiatives to enhance user satisfaction by 15% through the development of new features and enhancements aligned with customer needs.
- Optimized system efficiency by 20% through the design and implementation of streamlined algorithms and data structures.
- Cultivated and empowered 4 junior developers through mentoring and technical guidance, amplifying team productivity.

CBCHS Cameroon

January 2019 – 2022

Software Developer

Bamenda, North West Region

- Engineered and sustained web applications using .NET Core, AngularJS, HTML, CSS, and JavaScript, ensuring peak performance and scalability.
- Collaborated cross-functionally to dissect requirements, architect solutions, and execute features to meet business objectives.
- Leveraged Entity Framework for proficient data access and MS SQL Server for fortified database management, fortifying data integrity and security.
- Championed Agile development processes, orchestrating sprint planning, daily stand-ups, and sprint reviews to iteratively and effectively deliver software increments.
- Strategically interfaced with stakeholders to capture requirements, prioritize tasks, and deliver solutions aligned with business objectives.

Sursoft Solutions

June 2017 – March 2018

C# Developer Volunteer

Buea, South West Region

- Contributed to project planning, requirements gathering, and technical discussions to ensure strategic alignment with organizational objectives.
- Collaborated seamlessly with team members to cultivate and sustain software applications.
- Provided adept troubleshooting and resolution of technical issues to ensure seamless operation of software applications.

New Generations Technology

October 2016 – April 2017

Software Engineer Intern

Buea, South West Region

- Conducted rigorous testing and debugging of code to swiftly identify and resolve issues.
- Contributed substantially to documentation efforts, encompassing the drafting of technical specifications and user guides.

EDUCATION

Udacity

Nov. 2022 – March 2023

Cloud DevOps Engineer Nanodegree

University of Buea

Oct. 2013 – Oct 2017

B.Eng.

3.34/4

AWARDS

- Winners of 2022 SITA Hackathon

CERTIFICATIONS

- Microsoft Certified: Azure Administrator Associate
- Microsoft Certified: DevOps Engineer Expert
- HackerRank SQL (Intermediate) Certificate
- Freecodecamp Responsive Web Design
